The dates appended to various prohibitions are those of Orders of Council imposing or amending those prohibitions since the Royal Proclamation of 10th May 1916. Where no date appears it may be assumed that the prohibition stands as it did on the 10th May 1916.

List E (page—805).—Goods specially prohibited by Royal Proclamation of the 13th March 1917, as amended by Orders of Council of the 10th August 1917, and the 27th November 1917, to be exported to Switzerland. The goods in this list are consignable to the Société Suisse de Surveillance Economique. It must be understood, however, that all goods mentioned in the General List, pages 787-804, are prohibited to be exported to Switzerland whether mentioned in List E or not. Goods mentioned in the General List but not in List E are not consignable to the Société Suisse de Surveillance Economique.

* This list cancels all similar lists issued by the War Trade Department prior to *18th March 1918.*

London : Imperial House, Kingsway, W. C. 2.
Cardiff : 1, St. Andrew's Crescent ;
Manchester : 37, Peter Street ;
Edinburgh : 23, Forth Street ;

or from Messrs. E. Pousonby, Ltd., 115, Grafton Street, Dublin.

The attention of exporters is drawn to the fact that various articles marked (B) or (C) (such as, for instance, "Motor Vehicles and Motor Bicycles Accessories") may, in view of the percentage of copper contained in them, be subject to the Copper Prohibition (List A). (See "Copper.")

Application must therefore be made to the War Trade Department for licenses to export goods which fall within the aforementioned copper prohibition on account of the quantity of copper contained therein. Such applications should always indicate clearly the actual quantity of copper and-or copper alloys the goods contain.

In this connection attention is drawn to the following reprint of a notice which appeared in the Public Press of the 4th October 1917 :—

> The Director of the War Trade Department calls attention to the Royal Proclamation of September 29th, 1917, prohibiting the export, as from October 8th, 1917, of all goods (with the following exceptions) to Sweden, Denmark, Norway and Holland :—
>
> (1) Printed matter of all descriptions (which will remain subject to the censorship regulations).
> (2) Personal effects accompanied by their owners.

It is not proposed immediately to refuse all consideration of applications for the grant of licenses for the export of goods which have not hitherto been prohibited from export to Norway, Sweden, Denmark and Holland, but which now become prohibited under the Royal Proclamation in question. Exporters are warned, however, that the continuance of this arrangement must not be counted upon. The special arrangements in regard to the export of goods to Sweden, notified in the announcement issued by the War Trade Department on August 18th, 1916, are withdrawn as from October 8th, 1917; Sweden being thus placed on the same footing as the other Scandinavian countries and Holland. This order also applies to articles consigned by parcels post.

RESOLUTION ON THE ANNUAL REPORT ON THE JAIL ADMINISTRATION IN BENGAL FOR THE YEAR 1917.

GOVERNMENT OF BENGAL.

POLITICAL DEPARTMENT.

Jails BRANCH.

DARJEELING, THE 29TH MAY 1918.

RESOLUTION—No. 192 P.J.—D.

READ—

The Report on the Administration of the Jail Department in the Presidency of Bengal for the year 1917.

Also—

The Reports for the years 1916 and 1915 and the Resolutions of Government recorded thereon.

The increase in the jail population which has continued for some years past is again noticeable. The admissions during the year were 84,716 as

compared with 80,828 in 1916, while the average daily population in 1917 was 15,929 as compared with 15,546 in the previous year. The statistics are, however, affected by the serious outbreak of *hât* looting which took place in several districts during November and December 1917, with the result that on the 31st December 1917 there were nearly 4,000 under-trial prisoners in the Bengal jails, or more than double the ordinary number. The actual number of convicts admitted during 1917 did not greatly exceed those of the previous two years.

2. Nevertheless the capacity of the jails was severely strained, and overcrowding occurred at times in nearly all jails, although it was mitigated, wherever possible, by transfers between jails and by the accommodation of prisoners in verandahs, work-sheds and godowns. This state of things imposes a heavy burden on the Inspector-General and his officers, and must inevitably hamper jail administration by throwing additional difficulties in the way of maintaining discipline and sanitation. In these circumstances, it is satisfactory to find that the number of jail offences of all kinds was substantially less than in the preceding year, the ratio of total punishments to daily population being 166 against 180 in 1916.

3. Even more satisfactory is the indication of efficient jail administration afforded by the vital statistics. Judged by the number of admissions to hospital, the year was not a specially healthy one, but the number of deaths fell from 349 in 1916 to 253, and the ratio per mille from 22·4 to 15·8. This is by far the best record yet attained in Bengal, the lowest previous ratio being 20 in 1913. When Colonel Buchanan joined the Bengal Jail Department in 1892, the death-rate was 43 per mille, and he may well be congratulated on the improvement which has taken place, largely owing to his labours, during the last quarter of a century. Though dysentery is still the chief cause of mortality in the Bengal jails, there has been a marked decrease in the death-rate, pointing clearly to improvement in hospital management, since the issue in this disease depends largely on early recognition and proper treatment. The construction of new hospitals at Rangpur, Dinajpur and Jalpaiguri has resulted in a great improvement in the health of the prisoners at those jails which were formerly very unhealthy. The death-rates in all the Central Jails, except Midnapore, were well below the provincial average, and Midnapore's ratio of 26, though still regrettably high, is much below the previous year's record of 42 deaths per mille.

There seems to be no doubt that the improvement in the health of the jails is due, at least in some measure, to the increasing use of the wheat scale dietary. The use of wheat at one daily meal in lieu of rice has widely extended, and considerably more than half the prisoners have voluntarily adopted this diet. Statistics show that the incidence of bowel complaints is distinctly less among them than among those on the ordinary rice diet, to which most of the Bengali prisoners are accustomed in their own homes.

A special tuberculosis ward in charge of a trained sub-assistant surgeon has been opened in the garden of the Suri Jail for the accommodation of prisoners from the Western Bengal districts suffering from this disease, and a similar ward is being constructed at the Comilla Jail for the reception of cases from Eastern Bengal.

4. A substantial advance has been made in the development of the Juvenile Jail as an institution for the reformation of youthful criminals. A regular school has been started with a staff of three teachers and a drill instructor, while the appointment of a deputy jailor has relieved the jailor of most of his purely jail duties and has enabled him to devote more time to the educational and reformatory side of the institution. A tailoring industry has been introduced under a tailor master for the benefit of Muhammadan boys, and it is reported that they already show considerable aptitude in learning this work. Although no formal after-care association has yet been formed to provide work for junevile prisoners on release, offers of assistance in this direction have been received from some philanthropic gentlemen.

The manufacture of quinine tablets and treatments is the most important industry at this jail. During the year 1,394,922 treatment tubes, each

containing 20 tablets of four grains of pure quinine, were sold, besides about 8½ lakhs of five-grain tablets. Minor industries were also profitable, in spite of the increased time given to general education and moral and physical training.

5. The outturn of jail manufactures again exceeded that of the previous year, though the net profits fell from Rs. 5 lakhs to 3 lakhs, owing mainly to the increase in the price of raw materials, which left a very small margin of profit on some of the articles supplied under contract to the Military and other Departments of Government. Chaukidari uniforms were manufactured at a loss, but the rates have been revised since the close of the year. The blanket factory at the Dacca Central Jail which was started in 1916 has greatly expanded and supplied 27,600 blankets to the Army in 1917 as compared with 16,600 in the previous year. The new castor-oil industry at the Rajshahi Central Jail nearly doubled its outturn, 142 maunds of medicinal oil and 616 maunds of lubricating oil having been produced during the year.

6. Colonel Buchanan gives an interesting account of the manner in which the Bengal jails have helped in war work. During the last two years, 606 prisoners have been sent to various labour corps in Mesopotamia, including porters, dhobis, carpenters, artizans and sweepers. The jails have supplied the army with large quantities of gunny bags, gunny cloth, coir fibre, castor-oil and mustard oil, besides 44,000 blankets and over 356,000 bandages.

7. The attention of Government was called during the year to the variations in the proportion of convicts classified as habitual offenders in different jails throughout the Presidency. The matter is not merely one of statistics, but affects various aspects of jail administration, the main object being to prevent the demoralization of reclaimable offenders by association in jail with confirmed criminals. The responsibility for classifying convicts rests with the Courts, and the Governor in Council attaches great importance to the proper performance of their duties in this respect. The attention of Magistrates has been called to the instructions issued on the subject by the Government of India, and it is hoped that the classification will in future be carried out with greater care and discrimination.

8. The conduct of the warder staff was on the whole satisfactory. There was a slight increase in departmental punishments, but the number of judicial punishments, representing serious infractions of duty, fell from 14 to 8. The Inspector-General reports, however, that the difficulties of recruitment have not been overcome by the small increase of pay which was sanctioned in 1916, and which has been discounted by the general rise in prices. Resignations also show a tendency to increase. The whole question will receive further consideration when normal conditions are restored.

9. The Governor in Council congratulates the Inspector-General and the officers of the Jail Department on a successful year's work. The crowded state of most of the jails during the greater part of the year added to their labours and responsibilities, but in spite of this discipline was well maintained and the health of the prisoners has never been so satisfactory. To Colonel Buchanan the special thanks of Government are again due for his successful and efficient management of the Department and for the excellent results achieved during the sixteenth year of his tenure of the post of Inspector-General of Prisons.

Ordered that a copy of this Resolution be forwarded to the Inspector-General of Prisons, Bengal. for information and guidance.

Ordered also that a copy of this Resolution and a copy of the report be submitted to the Government of India in the Home Department.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Governor in Council,

J. H. KERR,

Chief Secretary to the Govt. of Bengal.

ANNUAL REPORT

OF THE

ROYAL BOTANIC GARDEN AND THE GARDENS IN CALCUTTA, AND OF THE LLOYD BOTANIC GARDEN, DARJEELING, FOR 1917-18.

ROYAL BOTANIC GARDEN.

1. **General.**—The garden is still suffering badly in its appearance from both the direct and indirect effects of the cyclone of September 1916, which, as far as damage to the garden is concerned, was by far the worst for the last twenty years. Over four hundred trees were uprooted and a large number, although not completely uprooted at the time, were so badly wrenched that they have since died. Of the remainder few escaped quite unscathed, most having sustained more or less serious damage in the twisting off of branches. The general direct result is that the garden has and will continue to have for some considerable time to come, a somewhat ragged and unkempt appearance. Indirectly the necessity for cutting up and removing fallen trees and cutting out dead ones caused a diversion of the labour force from ordinary routine work and cultivation of plants, so that the latter were to a considerable extent unavoidably neglected. The reduction of the garden staff proper to half its normal number by the absence throughout the year on Military service of the European Probationer and one of the Overseers did not make conditions any easier. For a garden which is one of the largest and most important in the Empire a staff of one European Curator and one Indian Overseer is hopelessly inadequate, but it was all that was available throughout the year. Under such difficult conditions Mr. G. T. Lane, the Curator, and Mr. N. Mitra, the Overseer, deserve credit for the work accomplished.

Considerable sections of the river bank were revetted, but much still remains to be done. This is civil engineering rather than horticultural work and has for several years caused a serious diversion of time and labour from proper gardening work. Many of the garden roads have deteriorated, partly to all appearance as a result of the increased use of motor cars in the garden. About two million bricks have been made for repairing roads and for continuing the revetment of the river bank.

The Curator as usual gave instruction in arboriculture to subordinate officers from the Public Works Departments of Bengal and Bihar and Orissa, and advised the Corporation of Calcutta.

2. **Plant and Seed Exchange and Economic Work.**—About 45,500 plants and 23,500 cuttings, a total of 69,000, were distributed to the Public Works, District Boards, Municipalities, Charitable Institutions. Railways, Government officers, and private individuals in India and to a few institutions abroad. Over 2,000 plants were received, exclusive of 160lbs. of *Polyalthia longifolia* seed sent to the Arboricultural Department at Delhi. Over 3,300 packets of seed were distributed within and without India. Over 270 packets were received, exclusive of two barrels of Mahogany seed from the Royal Botanic Garden, Kew.

Owing to my absence on special duty for the greater part of the year, the planting up of the Economic Garden was held in abeyance and work restricted to keeping it in cultivation. A line of young *Aesculus punduana* trees was planted along the southern boundary of the Economic Garden Planting of the Economic Garden will be started during the next rainy season.

3. **Herbarium and Library.**—Nearly 10,000 sheets have been incorporated in the Herbarium, and over 10,000 taken out for distribution to other herbaria, when conditions permit of exchanges being resumed. About 2,500 sheets were received from officers of the Forest Department, Botanical Survey, Agricultural Department and others, notable amongst them being a collection of over 900 sheets collected by the Rev. Father Blatter, S. J. on the High Wavy Mountain in Madura District, South India.

Over 300 additions were made to the library during the year.

4. **Publications.**—Part II of Vol. XII of the Annals of the Garden was in press throughout the year. It was finally approved for publication towards the end of the year.

5. **Financial.**—The revenue amounted to Rs. 600-12-4 as against an estimate of Rs. 500. On the total allotment of Rs. 1,05,960, there was saving of Rs. 20,358-12-1, the greater part of which was on salaries and establishment.

6. * * * * * * *

* * * * * * *

CALCUTTA GARDENS.

These gardens were kept in reasonably good order during the year, the work being of a routine horticultural character. * *

* * * * * * * *

* * * There was a small saving of Rs. 1,599-13-7 entirely on establishment on the total allotment of Rs. 42,537.

LLOYD BOTANIC GARDEN, DARJEELING.

There was an excess of rain during the year, over 143 inches having fallen. An exceptionally severe hailstorm on the 16th March caused considerable damage to plants of all kinds. Work was conducted under difficulties, natural, under present conditions. There was a shortage of labour and what was obtainable was not very satisfactory. Nevertheless, the garden, when inspected just after the close of the year, was in very good order. Over 80 new species were planted out. Over 6,600 plants, over 4,800 dozens of seedlings, over 500 bulbs and tubers and over 5,800 packets of seeds were distributed. As the garden collectors work from sub-tropical to sub-artic elevations, the collections are suitable for a very varied range of climatic conditions. Countries to which distribution of seeds, etc., was made during the year included such widely-separated parts of the earth, as Tibet, Egypt, America, New Zealand. Seeds and tubers of Himalayan species sent out from this garden are much appreciated all over the world, and their distribution is one of the most important functions of the garden, which Mr. G. H. Cave, the Curator, admirably carrys out. * *

(1) The Administrator shall see that all revenues of the Trust Fund are duly realized and credited in the cash-book, and that the expenditure made is strictly in accordance with the terms of the Trust. No payment shall be ordered except on a voucher duly signed by the person to whom the payment is to be made, stamped when necessary, and setting forth the particulars for which the money is due.

Explanation.—When a scholarship is paid to a student the mere receipt of the Principal of the institution to which the student belongs will not be a sufficient voucher for the disbursement of the money. The Principal shall present a regular bill for the scholarship to the Administrator, who will first check it and then, if it is found to be in order, shall endorse upon it a payment order thus—

"Pay rupees (words) only, and debit the account to the Doveton Trust Fund."

The endorsement shall be signed by the Administrator and a cheque or cash issued in payment.

The Principal will then obtain a receipt from the recipient of the scholarship, countersign it, and forward it to the Administrator, who will file it in his guard-book as the voucher in support of the debit in the cash-book.

(2) The money-order commission for remitting money in payment of scholarships or grants-in-aid shall be payable from the Fund.

Vouchers.

14. Vouchers shall be taken (except for very petty charges for which a written detailed statement shall be kept) in support of every entry on the payment side of the cash book. They shall be filed in a guard-book and numbered consecutively for the year in order of payment.

Annual Account.

15. As soon as possible after the 31st March in each year the Administrator shall render an annual account to the Local Government. The account shall be in Form No. II annexed, and shall be supplemented by two schedules, one of receipts and one of payments.

16. (1) In the schedules, the receipts and expenditure shall be classified under the following heads :—

Receipts.	Expenditure
	Education.
Voluntary subscriptions.	Scholarships for elementary education.
Interest on securities.	Scholarships for advanced education.
Miscellaneous.	Scholarships for technical education.
	Grants-in-aid to institutions.
	Establishment.
	Miscellaneous.

(2) Any other heads may be prescribed to suit the circumstances of the Trust Fund.

17. The opening balance shall be carefully checked by the Administrator with the closing balance of the previous annual account, and the closing balance shall be verified as follows :—

(1) the securities, by a reference to the Accountant-General's published list (as set out in article 171 of the Civil Account Code);

(2) the amount of the balance in the bank column, by a certificate that the amount agrees with the balance shown in the bank pass-book of the Trust Fund, less amount of uncashed cheques, if any;

(3) the cash, by a certificate, of the Administrator that it was really in his possession on the 31st March.

18. No vouchers for expenditure are required to be submitted with the account, but the Administrator shall certify—

(1) that he has duly and carefully kept an account of the Trust Fund in the prescribed manner;

(2) that he has carefully superintended both the receipts and expenditure of the Trust Fund, and believes that the latter is expedient and proper with reference to the objects of the Trust Fund; and

(3) that he has, as far as possible, obtained receipts for his expenditure.

19. (1) The Administrator shall submit to the Local Government annually in the month of February a budget estimate showing the estimated receipts and expenditure for the ensuing financial year.

(2) The Local Government may either sanction this budget or make such modifications in it as may seem to them to be proper.

(3) The Administrator may incur expenditure in accordance with the budget as approved by the Local Government without further reference to Government, except in so far as such reference is otherwise required in the foregoing rules.

DARJEELING, THE 10TH JUNE 1918.

RESOLUTION—No. 40 T.—Medl.

READ—

Resolution by the Government of Bengal No. 312-T.-Medl., dated the 17th May 1910.

Letter to the Government of India in the Home Department No. 1889-Medl., dated the 5th December 1917.

Letter from the Government of India in the Home Department No. 148, dated the 11th May 1918.

The pay and prospects of Civil Sub-Assistant Surgeons in Bengal were last revised in the year 1910, upon representations of grievances received from members of that Service, and the new scales of pay then sanctioned, commencing from Rs. 30 in the first five years of a Sub-Assistant Surgeon's service, and rising to Rs. 100 in the case of an officer of the first class senior grade, were notified in this Government Resolution of the 17th May 1910, cited in the preamble. Subsequently, however, Sub-Assistant Surgeons in military service, as well as in the civil medical service of

neighbouring provinces, have been remunerated on a scale higher than that offered to Sub-Assistant Surgeons in this Presidency, with the result that discontent with their prospects has been engendered amongst corresponding officers in Bengal, while difficulties have been experienced in securing recruits. The question has therefore been again taken into consideration, and the sanction of the Government of India has been obtained to a further increase in the rates of pay, which will come into force with effect from the 1st June 1918.

2. The existing rates of pay in the different grades are compared below with those to the introduction of which sanction is now given :—

Grades.	Existing rates of pay.	Revised rate of pay now sanctioned.
	Rs.	Rs.
Senior grade (1st class)	100	120
Senior „ (2nd class)	80	100
Grade I (over 15 years' service)	65	80
„ II (from 11 to 15 years' service) ...	55	70
„ III (from 6 to 10 years' service) ...	45	60
„ IV (from 1 to 5 years' service) ...	30	50

3. The changes now made in the rates of pay will not in any way alter the conditions of promotion from the lower to the higher grades, which will continue to be regulated under the existing orders on the subject, *i.e.*, the promotion from grade IV to grade III and from grade III to grade II will continue to be regulated by the results of the departmental examinations held under the rules prescribed for the purpose. There is no examination for promotion from grade II to grade I and from grade I to the senior grade, but each Sub-Assistant Surgeon in grade II is required to pass a period of five years in that grade before promotion to grade I, while promotion from grade I to the senior and within the latter grade is given by selection. The total number in the senior grade will also continue to be restricted to 12 per cent. of the provincial establishment, viz., 10 per cent. in the 2nd, and 2 per cent. in the 1st class of that grade.

4. Sub-Assistant Surgeons without English qualifications, who are still in the service will remain unaffected by these orders, as decided in paragraph 4 of this Government Resolution of the 17th May 1910.

5. The revision of the salaries of Sub-Assistant Surgeons now sanctioned will necessitate an enhancement of the amounts payable by local bodies for the services of the officers of this class who are lent to them. Such contributions are at present made at the rate of Rs. 52 a month, but in cases in which the services of Sub-Assistant Surgeons were lent before the 1st August 1913, contributions are recovered at the rate of Rs. 57 a month. With effect from the 1st June 1918, the amounts payable by these local bodies will be raised to Rs. 69-8 and Rs. 76 a month, respectively.

6. The Surgeon-General with the Government of Bengal, will be instructed to forward to the Accountant-General, Bengal, a list showing the names of the officers in the various grades drawing their salaries at the increased rates now sanctioned.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Surgeon-General with the Government of Bengal and the Accountant-General, Bengal, for the information and guidance, and to all Commissioners of Divisions, to all Heads of Departments and to the other departments of this Government, for information.

Ordered also that a copy of the Resolution be submitted to the Government of India, for information.

Ordered that the Resolution be published in the *Calcutta Gazette*.

By order of the Governor in Council,

Secy. to the Govt. of Bengal.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 6th June 1918.

Summary.—During the week heavy rain fell over a greater part of Eastern Bengal. Elsewhere the fall was seasonable. Orders by the Governor of Bengal in Council.

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

24-Parganas.

No. 1319M.—The 12th June 1918.—The following draft of rules which, in exercise of the power conferred by section 290 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Governor in Council proposes to make in supersession of the rules published under Notifications No. 1963M., dated the 10th December 1908, and No. 95T.M., dated the 30th April 1913, and subject to which the Commissioners of the Maniktola Municipality may allow communication-pipes to be laid down from the service-pipes of the Commissioners for the purpose of leading water to premises for domestic purposes only are published for the information of persons likely to be affected thereby.

2. The draft rules will be taken into consideration on the 20th July 1918, and any objection or suggestion which may be received by the undersigned through the District Magistrate before that date will be duly considered.

DRAFT RULES.

So long as the Commissioners deem it practicable and consistent with the maintenance of an efficient water-supply, they may allow any owner or occupier of a holding paying a water-rate imposed under the provisions of Part VII of the Bengal Municipal Act, 1884, on the annual value of such holding, when such annual value is not less than Rs. 96, to lay down communication-pipes from the service-pipes of the Commissioners for the purpose of leading water to such holding for domestic purposes only, subject to the following rules and conditions:

Provided that no connection shall be allowed to holdings other than masonry buildings without the sanction of the Commissioners at a meeting:—

1. The owner or occupier of any holding requiring water to be laid or to such holding for domestic purposes, or requiring any addition or alteration to an existing water-supply, must apply for the same on a printed form to be supplied, free of cost, at the municipal office.

2. A fee of Rs. 2 must be paid to the Commissioners by such owner or occupier for each connection to a municipal main supply-pipe or a common communication-pipe laid in accordance with rule 3 before any work is commenced, such fee to be in addition to all other costs and charges imposed under these rules.

3. Except as provided below each holding must have a separate connection to the municipal main supply-pipe and extensions from the communication-pipe of one holding to another holding shall not be permitted:

Provided that with the consent of the Commissioners in meeting connections to two or more holdings may be permitted from a common

communication-pipe. Any such communication-pipe must be laid in a street or common passage and a stop-cock and meter as provided for in rule 7 must be fixed on the connection to each holding:

Provided also that no holding shall have more than one separate connection, but if in any case the Commissioners are satisfied that an adequate supply to any holding cannot be given through a single connection, they may sanction a second connection thereto.

4. The owner or occupier of the holding in respect of which the connection is required, must pay the entire cost of the connection, including the supply and fixing of the fittings referred to in rule 7, and must also pay the cost of such alterations in, or repairs to, roads, drains, sewers, gas or water-mains or pipes, and the cost of such other works, as may be necessitated by, or result from, the work of making such connection.

5. The owner or occupier of the holding to which a connection has been given must, at any time, on receipt of notice to do so from the Commissioners, pay the entire cost of any repairs or alterations to the connection or any part thereof that the Commissioners may consider necessary to put it into a satisfactory condition or which may be necessitated by any change in the municipal water-works or system of distribution or by the defective condition of the connection or any part thereof or by any other cause whatever.

6. (*1*) The works required under rules 4 and 5 may, at the option of the Commissioners, either be carried out by the Commissioners themselves at the expense of the owner or occupier of the holding in respect of which the works are required, or may be carried out by a person or firm employed by such owner or occupier and approved by the Commissioners.

(*2*) No work shall be carried out under sub-rule (*1*), except under the supervision of a municipal officer.

7. A holding connection shall comprise the following parts or fittings:—

(*a*) a brass or gun-metal ferrule inserted in the main supply-pipe;
(*b*) a galvanized iron communication-pipe from the ferrule to the meter;
(*c*) a stop-cock and its surface-box;
(*d*) a meter;
(*e*) service-pipes from the stop-cock to the taps; and
(*f*) taps.

8. (*1*) All the fittings referred to in rule 7 shall be exact duplicates of standard samples kept in the office of the Commissioners, and approved by them in meeting.

(*2*) All fittings shall be inspected and tested and stamped by an officer of the municipality before being fixed.

(*3*) If any owner or occupier shall desire to adopt any fitting of a pattern different from the standard patterns, he must present such fitting for the approval of the Chairman, and any fittings so presented may, if considered satisfactory by the Chairman, be stamped, and samples thereof may be purchased and placed among the standard fittings.

9. The holding connection, when fitted in position, must be capable of standing a pressure of 100 feet, and no water shall be supplied until it has stood such a test applied by the Commissioners.

10. The size of the ferrule and the diameter of the communication-pipe referred to in clauses (*a*) and (*b*) of rule 7, and the number of taps shall be fixed in accordance with the annual valuation of the holdings as follows:—

Annual valuation of holding.		Sizes of ferrule.	Diameter of communication-pipe.	Number of taps.
Rs.	Rs.	Inch.	Inch.	Inches.
Under 150		½	½	1
From 150	to 399	½	½	2
„ 400	„ 599	⅝	⅝	3
„ 600	„ 899	⅝	⅝	4
„ 900	„ 1,199	¾	¾	5

„ 1,500	„ 1,999	¾	1	7
„ 2,000 and over—an extra tap for every additional Rs. 1,000.				

11. (*1*) On every communication-pipe a brass or gun-metal stop-cock having the same water-way as such pipe shall be placed as near as practicable to the point where that pipe enters the holding to be supplied.

(*2*) The stop-cock shall be built in a brick chamber provided with a cast-iron surface cover-box so designed that it can be locked, and the key of this box shall remain under the control of the Chairman.

(*3*) The stop-cock shall be capable of adjustment so that the supply to the holding may be regulated thereby.

12. (*1*) The meter shall be placed as near to the stop-cock as possible and in a position where it can be conveniently examined.

(*2*) The meter must be fixed in a brick chamber covered over with a cast-iron surface box of a pproved pattern.

13. The Commissioners shall depute an authorized person to read every meter not less than once a quarter, and shall give notice to the occupier at least twenty-four hours before the reading is recorded.

14. (*1*) Every owner or occupier of any holding, in respect of which a connection has been made, under these rules, shall be entitled to a supply of—

(*a*) nine gallons of water per head per diem ;

(*b*) three thousand and five hundred gallons of water per quarter for each rupee, and

(*c*) a further proportionate number of gallons per quarter for every additional fraction of a rupee,

paid by him quarterly as water-rate in respect of such holding.

(*2*) For all water in excess of the amount allowed under sub-rule (*1*) (*b*) such owner or occupier shall be charged quarterly as follows :—

	Annas per 1,000 gallons.
	AS. P.
(*a*) For any excess quantity of water not exceeding one-half of the amount of the allowance prescribed in sub-rule (*1*) (*a*)	5 3
(*b*) For any excess quantity of water exceeding one-half of the amount of the allowance prescribed in sub-rule (*1*) (*a*), but not exceeding that amount ...	6 3
(*c*) For any excess quantity of water exceeding the amount of the allowance prescribed in sub-rule (*1*) (*a*), but not exceeding twice that amount ...	8 0
(*d*) For any excess quantity of water exceeding twice the amount of the allowance prescribed in sub-rule (*1*) (*a*)	10 0

15. The Commissioners may cut off the connection between any water-works of the municipality and any holding to which water is supplied from such works, or may turn off such supply, in any of the following cases, namely —

(*a*) if the holding is unoccupied ;

(*b*) if the occupier refuses to admit any officer duly empowered in that behalf into the holding for the purpose of making any examination or inspection authorized under this Act, or under any by-law or rule framed under this Act, or prevents such officer from making such examination or inspection ;

(*c*) if the owner or occupier of the holding touches or interferes with his meter in any way except with the permission of the Chairman, or wilfully injures or damages it ;

(*d*) if the owner or occupier of the holding wilfully or negligently permits waste of water in such volume as will, in the opinion of the Chairman, endanger the water-supply in the neighbourhood ;

(*e*) if the owner or occupier of the holding shall refuse or neglect to pay any of the fees or charges imposed in accordance with these rules for a space of fourteen days after he has been served with a notice of demand for the same ;

(*f*) if the owner or occupier of the holding constructs or fixes any cisterns, tanks, reservoirs, taps, pipes or any other works in connection with the water-supply not authorized by these rules ;

(*g*) if the pipes, taps, ball-cocks, cisterns, or any other parts of the connection are, in the opinion of the Commissioners at a meeting, in a leaking condition or a state of disrepair:

Provided that such disconnection or turning off of water-supply shall not relieve any person from any liabilities which he may have incurred under these rules.

In the circumstances contemplated in clause (*d*) an officer authorized by the Commissioners in this behalf by a general order shall have the power to turn off the supply for a period not exceeding eight hours on his previously recording his reason in writing.

16. Every tap shall be of the same size as the pipe to which it is attached and shall be of brass and of the pattern known as "Screw-down". Every tap shall be at least 3 feet above the surface of the ground beneath.

17. No cistern tank or reservoir of any description which is intended to be supplied with water from the municipal water-works shall be permitted to any holding except with the sanction of the Commissioners in meeting and such sanction shall distinctly specify the dimensions and capacity of the cistern, tank or reservoir allowed. The inlet to every such cistern, tank or reservoir must be controlled by an efficient ball-cock so that the discharge thereinto is completely stopped when the cistern, tank or reservoir is full. Any taps fed from such cistern, tank or reservoir must be included in the number of taps allowed under rule 10.

18. No connection shall be permitted to any holding unless and until the owner or occupier makes effective provision to the satisfaction of the Commissioners for draining all waste water away.

RESOLUTION ON THE ANNUAL REPORT ON THE POLICE ADMINISTRATION OF THE TOWN OF CALCUTTA AND ITS SUBURBS FOR THE YEAR 1917.

GOVERNMENT OF BENGAL.

POLITICAL DEPARTMENT.

DARJEELING, THE 15TH JUNE 1918.

RESOLUTION—No. 1861P.J.

READ—

The Annual Report on the Police Administration of the Town of Calcutta and its Suburbs for the year 1917.

MR. R. CLARKE again held charge of the office of Commissioner of Police throughout the year, except for a period of two and-a-half months during which he was on leave and Mr. E. H. Corbett acted for him.

2. There were no important changes in the organisation of the force during the year, beyond an addition to the Detective Department made mainly in order to enable it to cope with commercial frauds and other specialised forms of crime, involving lengthy investigations with which the station staff are unable to deal without detriment to their ordinary duties. Additional launches are being constructed in connection with a scheme for the improvement of the river patrol system designed to check smuggling and the illicit importation of arms.

3. The difficulties in connection with the recruitment of the rank and file have increased, and the number of vacancies at the close of the year was 568, or more than 10 per cent. of the total sanctioned strength. Endeavours to obtain Bengali recruits for the Calcutta constabulary have failed, and Bihar and the United Provinces remain the chief sources of supply. The heavy drain on these areas during the last two years for men for the army and for labour corps, as was to be expected, has seriously interfered with police recruitment. The sanction of the Secretary of State has recently been obtained to a general increase of two rupees a month in the pay of the constables in the Calcutta Police, and this, it is hoped, will prevent any further depletion of the force, though it will probably be impossible to bring it up to full strength till after the end of the war.

4. It was impossible to do much during the year towards solving the difficulty of housing the police in Calcutta. The department urgently needs more buildings, and the existing arrangements under which most of the force are accommodated in unsuitable hired houses are not only inconvenient but also uneconomical. The yearly rent paid to private owners rose from Rs. 2,64,170 in 1916 to Rs. 2,83,178 in 1917, and must continue to rise with the value of house property in Calcutta. The Governor in Council awaits the submission of the building scheme which the Commissioner is drawing up.

5. Crime in the aggregate, including petty cases under all Acts, steadily increased, and the total number of true cognizable cases was 106,540, or 6,127 more than in the previous year. Serious offences against person and property were, however, fewer, and the main increase was in miscellaneous offences under the Calcutta and Suburban Police Acts and under the Cruelty to Animals Act, which together account for 84 per cent. of the total number of cases. Excise cases showed a further marked fall. The percentage of cases disposed of by Honorary Magistrates rose from 35 to 47. The number of cases committed to Courts of Session was considerably less than in 1915 and 1916, while the percentage of conviction was somewhat lower.

6. The number of juveniles convicted rose to 1,259, or 455 more than in the previous year. Of these 1,171 were tried in the House of Detention instead of in the ordinary courts. Only 19 were sentenced to imprisonment in the Juvenile Jail, while 24 were sent to reformatories. It is satisfactory to find that the courts tend to deal with youthful offenders more and more by warning and discharging them, or by binding them over as first offenders, and less by means of whipping or fining.

Two probation officers have been appointed to watch over youthful offenders after their release from the House of Detention. These officers supervised the conduct of 53 boys during the year and made enquiries regarding many more. Their work, if conscientiously performed, should prove valuable in assisting potential criminals to lead honest lives.

7. The courage and devotion to duty displayed by the officers of the Special Branch of the Calcutta Police and their close co-operation with the Intelligence Branch of the Bengal Police in the struggle with the revolutionary conspiracy have at last begun to bear fruit. Except for a robbery in January and a dacoity with murder in May, the city was free from revolutionary crime, and for the first time since 1912 no police officer was assassinated in Calcutta. There can be no doubt that this result is due largely to the preventive measures taken under the Defence of India Act and Regulation III of 1818. At the same time conspirators are still at work. The collections of weapons brought to light by the diligence of the police show what the nature of their activities would be, given the

opportunity, and are also evidence of the accuracy of the information which the police are able to obtain. In one house four live bombs were discovered as well as cartridges and seditious literature. On three occasions men were arrested while in possession of revolvers and ammunition, and in one case an endeavour was made to murder the officer who effected the arrest. In two more houses stores of ammunition were discovered.

8. The number of motor vehicles of all sorts running in Calcutta continues to increase, and their proper control is a matter of no small difficulty. No less than 1,032 persons were injured in street accidents during the year; the number of deaths was 54 as compared with 75 in 1916. Rashly-driven taxi-cabs in particular are a constant source of danger to the public. Deterrent sentences and the cancellation of misused licenses are the most effective means of dealing with the matter, and it is satisfactory that the number of cases sent up and the number of convictions were more than double those of the previous year. A proposal was made during the year by the Government of Bengal that the power of cancelling and suspending licenses should be given to the Commissioner of Police; the point has been reserved by the Government of India for consideration when the amendment of the Indian Motor Vehicles Act of 1914 is undertaken. Steps have been taken to check the use of excessively powerful and dazzling lights in the streets and to abate the nuisance caused by noisy mechanical horns and sirens.

9. An informal censorship of cinematograph films was introduced during the year and worked satisfactorily. A board of censors has been established for each separate management showing cinematograph films in Calcutta, and their supervision and advice have been cordially accepted by bioscope proprietors. The thanks of Government are due to the members of the boards for their valuable services.

10. The Calcutta Fire Brigade again rendered excellent service during the year. It was called out on 377 occasions, but the average loss per call was only Rs. 1,838 as compared with an average of Rs. 2,733 for the last five years. It is hoped that the efficiency of the Brigade will be still further increased by the improved scale of pay recently sanctioned.

11. The Governor in Council has read with pleasure the list of officers who have been commended by the Commissioner of Police for good work done during the year. The discipline of the force was satisfactory and the general standard of work was well maintained. The thanks of Government are specially due to Mr. Clarke for his efficient administration of the department.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Commissioner of Police, Calcutta, the Chief Presidency Magistrate, Calcutta, and the Commissioner of the Presidency Division for information.

Ordered also that a copy of the Resolution and a copy of the Report be submitted to the Government of India in the Home Department.

Ordered, also, that the Resolution be published in the *Calcutta Gazette*.

By order of the Governor in Council,

J. H. KERR,

Chief Secy. to the Govt. of Bengal.

AN ACT TO MAKE PROVISION FOR THE ESTABLISHMENT, ADMINISTRATION, AND DISCIPLINE OF AN AIR FORCE, THE ESTABLISHMENT OF AN AIR COUNCIL, AND FOR PURPOSES CONNECTED THEREWITH.

[29th November 1917.]

BE it enacted by the King's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:—

PART I.

ESTABLISHMENT OF AIR FORCE.

Raising and number of Air Force.

1. It shall be lawful for His Majesty to raise and maintain a force, to be called the Air Force, consisting of such number of officers, warrant officers, non-commissioned officers, and men as may from time to time be provided by Parliament.

Government, discipline, and pay of Air Force.

2. (*1*) Subject to the provisions of this Act it shall be lawful for His Majesty, by order signified under the hand of the Secretary of State, to make orders with respect to the government, discipline, pay, allowances, and pensions of the Air Force, and with respect to all other matters and things relating to the Air Force, including any matter by this Act authorised to be prescribed or expressed to be subject to orders or regulations.

(*2*) The said orders may provide for the formation of men of the Air Force into separate units and for the formation of such units into corps, and for appointing, transferring, or attaching men of the air force to units, and for posting, attaching, and otherwise dealing with such men within the units, and may regulate the appointment, rank, duties, and numbers of the officers and non-commissioned officers of the Air Force.

(*3*) Subject to the provisions of any such order, the Air Council hereinafter constituted may make general or special regulations with respect to any matter with respect to which His Majesty may make orders under this section:

Provided that the administration of pensions, other than service pensions within the meaning of the Ministry of Pensions Act, 1916, shall vest in the Minister of Pensions.

6 & 7 Geo. 5, c. 65.

(*4*) All orders and general regulations made under this section shall be laid before Parliament as soon as may be after they are made.

Transfer and attaching to Air Force of members of Naval and Military Forces.

3. (*1*) Any officer, warrant officer, petty officer, non-commissioned officer, or man of any of His Majesty's naval or military forces may, with his consent and subject to the approval of the Admiralty or Army Council (as the case may be), be transferred by the Air Council to the Air Force, or attached by the Air Council to the Air Force for the period of the present war or for a period not exceeding four years:

Provided that—

(*a*) any officer, warrant officer, petty officer, non-commissioned officer, or man who at such date as may be fixed by Order in Council belongs or is attached to the Royal Naval Air Service, the Royal Flying Corps or any unit of the naval or military forces engaged in defence against aircraft which is designated by the Admiralty or Army Council for the purpose, may be so transferred or attached without his consent, but if any person so transferred or attached, within three months from the time when he receives notice of such transfer or attachment or such longer period as in any particular case the Air Council may allow, gives notice to his commanding officer that he does not desire to be so transferred or attached, the transfer or attachment shall be annulled without prejudice to the validity of anything which may have been done in the meanwhile; and

(*b*) no person transferred to the Air Force under the provisions of this section shall be liable to serve with the Air Force for any longer period than that for which he would have been liable to serve had he continued in the force from which he was transferred.

(2) Regulations made by the Air Council may provide that in the case of a person so transferred, the time during which he held a commission or served in the force from which he is transferred shall, for such purposes as may be prescribed, be aggregated with the time during which he holds a commission or serves in the Air Force, and that his entry into or enlistment in the force from which he is transferred shall, for such purposes as may be prescribed, be treated as enlistment into the Air Force.

(3) Where any person is transferred to the Air Force under this section, then for the purpose of pay, pensions, gratuity, and retired or half-pay, and of any decoration or reward dependent on length of service, any previous service with His Majesty's naval or military forces which would have counted as service towards pay, pension, gratuity, retired or half-pay, or such decoration or reward if he had not been so transferred, shall be deemed to be service with the Air Force towards pay, pension, gratuity, retired or half-pay, or such decoration or reward.

(4) Where any person is attached to the Air Force under this section, the fact that he is so attached shall not affect any right to any pay, pension, gratuity, retired or half-pay, or such decoration or reward as aforesaid, already earned by him in that branch of His Majesty's naval or military forces to which he belonged at the date on which he was so attached, and the period during which he is so attached shall, for the purpose of any provisions relating to pay, pensions, gratuity, retired or half-pay, or such decoration or reward, be deemed to be service with that branch of His Majesty's naval or military forces to which he belonged at the date on which he was so attached.

Rights of officers.

4. Officers in the Air Force shall enjoy all such powers, rights, immunities, and privileges as are enjoyed by commissioned officers of His Majesty's Navy or Army as such, whether conferred by Statute or otherwise, and the acceptance of a commission in the Air Force shall not render a person accepting such a commission incapable of being elected to or sitting or voting in the Commons House of Parliament, and nothing in the Succession to the Crown Act, 1707, or any similar enactment shall extend to any member of the Commons House of Parliament who, being an officer of the Air Force, receives any new or other commission in the Air Force, or receives a commission in His Majesty's Navy or Army, or who, being an officer in His Majesty's Navy or Army, receives a commission in the Air Force. 6 Anne, c. 41.

Application of Military Service Acts, etc.

5. (1) Any men who, by virtue of the Military Service Acts, 1916 and 1917, are deemed to have been enlisted in His Majesty's regular forces and to have been transferred to the reserve, or who having voluntarily enlisted in the regular forces have been so transferred, shall on being called up for service be liable to be transferred to the Air Force. 5 & 6 Geo. 5, c. 104. 6 & 7 Geo. 5, c. 15. 7 & 8 Geo. 5, cc. 12 and 26.

(2) There shall be included amongst the exceptions mentioned in the First Schedule to the Military Service Act, 1916, the following:—

Men serving in the Air Force.

Air Force Reserve and Auxiliary Force.

6. (1) It shall be lawful for His Majesty to raise and maintain an Air Force Reserve and an Auxiliary Air Force consisting in each case of such number of officers, warrant officers, non-commissioned officers, and men as may from time to time be provided by Parliament, and to provide for the transfer or attachment to the Auxiliary Air Force, subject to their consent, of officers and men of any unit of the territorial force which at the passing of this Act forms part of the Royal Flying Corps.

(2) His Majesty may, by Order in Council, apply with the necessary adaptations to the Air Force Reserve, or to the Auxiliary Air Force, or to the officers or men of any such force, any enactment relating to the Army Reserve or to the Territorial Force or to the officers or men of those forces, and such Order in Council shall be laid before both Houses of Parliament.

Consequential amendments of Naval Discipline Act and Army Act.

7. The amendments set out in the second column of the tables in Part I and Part II of the First Schedule to this Act (being amendments consequential on the establishment of an air force) shall be made in or inserted after the provisions of the Naval Discipline Act and the Army Act respectively mentioned in the first column of those tables, and section two of the Naval Discipline Act, 7 & 8 Geo. 5, c. 65.

1917 (which relates to the printing and construction of the Naval Discipline Act), shall apply to the amendments of the Naval Discipline Act made by this Act in like manner as it applies to the amendments thereof made by that Act.

PART II.

ESTABLISHMENT OF AIR COUNCIL.

Establishment of Air Council.

8. (*1*) For the purpose of the administration of matters relating to the Air Force and to the defence of the realm by air there shall be established an Air Council consisting of one of His Majesty's Principal Secretaries of State, who shall be President of the Air Council, and of other members, who shall be appointed in such manner and subject to such provisions as His Majesty may, by Order in Council, direct.

(*2*) His Majesty may, by Order in Council, fix the date as on which the Air Council is to be established, and make provision with respect to the proceedings of the Air Council and the manner in which the business of the Council is to be distributed among the members thereof.

(*3*) On the establishment of the Air Council, the Air Board constituted under the New Ministries and Secretaries Act, 1916, shall cease to exist, and all the powers, duties, rights, liabilities, and property of that Board shall be transferred to the Air Council, but nothing in this sub-section shall affect any orders, instructions or other instruments, issued by the Air Board, and all such instruments shall have effect as if issued by the Air Council.

6 & 7 Geo. 5, c. 68.

(*4*) His Majesty may, by Order in Council, transfer from the Admiralty, or from the Army Council or the Secretary of State for the War Department, to the Air Council or the President of the Air Council such property, rights, and liabilities of the Admiralty or Army Council or Secretary of State as may be agreed between the Air Council and the Admiralty or the Army Council, as the case may be.

Staff, remuneration, and expenses.

9. (*1*) The Air Council may appoint such secretaries, officers, and servants as the Council may, with the sanction of the Treasury, determine.

(*2*) There shall be paid, out of moneys provided by Parliament, to the members of the Air Council, and to the secretaries, officers, and servants of the Council, such salaries or remuneration as the Treasury may determine.

Style, seal, and proceedings of Air Council.

10. (*1*) The Air Council may sue and be sued, and may for all purposes be described by that name.

(*2*) The Air Council shall have an official seal, which shall be officially and judicially noticed, and that seal shall be authenticated by the signature of the President, or of a secretary, or of some person authorised by the Council to act on behalf of a secretary.

(*3*) Every document purporting to be an instrument issued by the Air Council, and to be sealed with the seal of the Council, authenticated in manner provided by this Act, or to be signed by a secretary or any person authorised by the Council to act on behalf of a secretary, shall be received in evidence, and be deemed to be such an instrument without further proof, unless the contrary is shown.

(*4*) A certificate signed by the President of the Air Council that any instrument purporting to be made or issued by the Council was so made or issued shall be conclusive evidence of the fact.

31 & 32 Vict., c. 37. 45 & 46 Vict., c. 9.

(*5*) The Documentary Evidence Act, 1868, as amended by the Documentary Evidence Act, 1882, shall apply to the Air Council as if that Council were mentioned in the first column of the schedule to the first-mentioned Act, and as if the President, or a secretary of the Council, or any person authorised by the President to act on behalf of the Council, was mentioned in the second column of that schedule.

Provisions as to sitting in Parliament.

11. The number of Principal Secretaries of State and Under Secretaries capable of sitting and voting in the Commons House of Parliament shall be increased to five, and accordingly section four of the Government of India Act, 1858, and section one of the House of Commons (Vacation of Seats) Act, 1864, shall have effect as if the word "five" was substituted for the word "four" wherever that word occurs in those sections:

21 & 22 Vict., c. 106. 27 & 28 Vict., c. 34.

Provided that nothing in this provision shall affect the operation of section nine of the New Ministries and Secretaries Act, 1916, so long as that section continues in force.

RESOLUTION ON THE TRIENNIAL REPORT ON THE LUNATIC ASYLUMS IN BENGAL FOR THE YEARS 1915-17.

GOVERNMENT OF BENGAL.

FINANCE DEPARTMENT.

Medical Branch.

CALCUTTA, THE 25TH JUNE 1918.

RESOLUTION—No. 1501Medl.

READ—

The Triennial Report on the Lunatic Asylums in Bengal for the years 1915-17.

READ ALSO—

The Annual Returns of the Lunatic Asylums in Bengal for 1915 and 1916, with remarks recorded thereon by the Surgeon-General with the Government of Bengal.

THE main problem which concerned the administration of the Lunatic Asylums in Bengal during the triennium was that of accommodation. As had been anticipated, the average number of inmates was greater than that of the previous triennial period, and the question of accommodation, even then difficult, became somewhat acute. Conditions arising out of the war had to some extent delayed the construction of the new asylums at Ranchi, which are intended for the reception of the bulk of the insanes of this Presidency, and temporary arrangements were therefore made in the asylums to provide for the increased numbers. Since the close of the year the European Asylum at Ranchi has been opened, and the inmates of the Bhowanipore Asylum have been transferred there. The construction of the Indian asylum at Ranchi is in progress, while the old asylum at Bhowanipore will shortly be converted into an observation ward for mental cases, both European and Indian. The completion of these three institutions will effect a much needed, and long called for, improvement in the arrangements for the treatment of insanes in Bengal.

2. The daily average population of the asylums during the triennium was 1,080·90 against 1,072·23 in the previous three years; the average number of admissions was 240 as against 200, and the average number of discharges 153 as compared with 125. Judging by these figures there would seem to have been a tendency to depart from the principle that admissions should be restricted to cases in which detention was unavoidable. There is truth in the statement of the Surgeon-General as to the apathy and indifference of the friends and relations of lunatics, and the retention of those who could be looked after outside only renders more difficult provision for the friendless insanes who can only look to the asylums.

3. A satisfactory feature of the period is the continued marked improvement in the health of the asylum population. No disease assumed epidemic form, and there has been a marked decrease in the number of cases and of deaths from both phthisis and dysentery.

4. Generally the management of the asylums has been excellent, and reflects great credit on all the officers concerned. Major Peebles, who for many years held charge of the asylum at Berhampore, has now been transferred to Ranchi to superintend the asylum there. During his service in Bengal he has been of great assistance to Government in all matters connected with the treatment of insanes, and on his departure from the province the Governor in Council desires to place on record his high appreciation of his valuable work.

By order of the Governor in Council,

J. DONALD,
Secy. to the Govt. of Bengal.
